True two way™

A real business two way radio

Designed to be rugged and ultra reliable, it delivers the high powered (1 watt) speaker audio and functionality that two way radio users expect. It features a robust high tactile PTT button but uniquely comes with a volume up-down capability so your iP100/501 can safely remain in its holder or your pocket. Securely stored, your iP radio stays protected from the elements and safe from damage, drops and other everyday mishaps. At the end of the work day, simply plug the microphone into an available USB charger using the supplied XUSB adaptor cable while your smartphone is recharging and it's ready to go, when you are.

Built for government and business professionals

The high quality, durability and reliability of the X10DR-LTE power microphone is noise cancelling has been designed to meet the highest standards required by government agencies and law enforcement officers working in critical scenarios using premium quality resilient curly cables and a 360° rotatable clothing clip. The commercial user can feel assured that you are getting the same industrial class dependability and performance, no matter the size or type of your operation.

Earpiece operation

While two way provides the ability to communicate instantly to many with the press of a button, there are times when it's preferred that only your staff and not those standing nearby can hear more sensitive operational commands. A 3.5mm audio headphone jack on the base of the device provides for those private secured communications when the situation demands.

Long battery life

The X10DR-LTE power mics' high capacity 1450mA internal Lithium polymer battery means you will typically achieve in excess of 24 hours operation between re-charges. Plugging the microphone into any available 500mA USB charger, via the supplied XUSB-4S charging adaptor, allows a 100% re-charge from completely flat in around 4 hours. A vehicle upgrade kit is available that allows you to easily adapt the power microphone for fixed 12v use inside a vehicle. The kit includes a replacement back cover with a mobile hang up clip and a plug-in 5mm curly cable with molded RJ45 connector in place of the 4 pole connector.

WE NEVER LOSE SIGHT THAT THE RIGHT RADIO COMMUNICATIONS SOLUTION IS ABSOLUTELY VITAL IN SECURING YOUR ORGANISATIONAL OBJECTIVES. WE CONSTANTLY FOCUS ON HOW TO DELIVER A BETTER WIRELESS SOLUTION, WIRELESS SPECIFIC SOLUTIONS THAT DELIVER TRULY EFFECTIVE OPERATIONAL RESPONSIVENESS WITH UNCOMPROMISING SAFETY.
